

Tree Rubbing

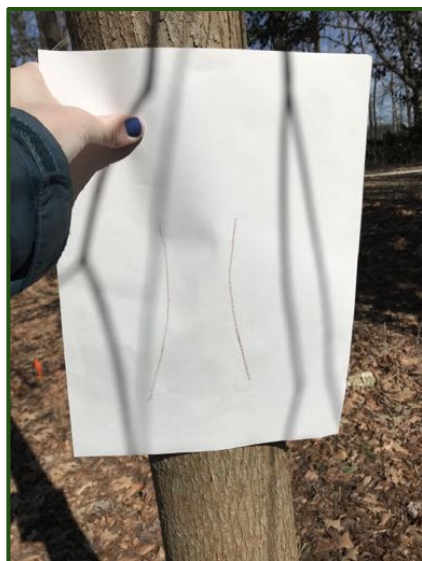

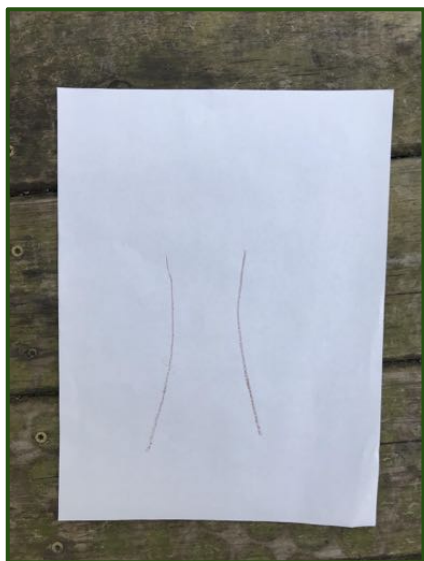

Here are some supplies you'll need to get started!

- Paper
- Crayons
- A tree with cool bark
- A flat leaf (brown or green)

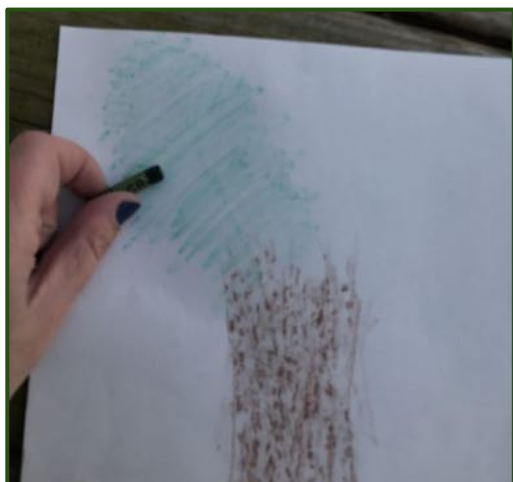

Step 1 Use a brown crayon to draw a tree trunk in the middle of your page. Don't color it in! Then, hold it over the tree you picked.

Step 2 Rub the crayon over the bark to color the trunk in! The harder you press, the more you'll see the pattern.

Step 3 Position the leaf under the paper and rub a green crayon over it. Move the leaf around a few times!

Step 4 Add some grass, a sky, and some wildlife to your tree rubbing!
