

# Watercolor Resist Snowflakes

## Here are some supplies you'll need to get started!

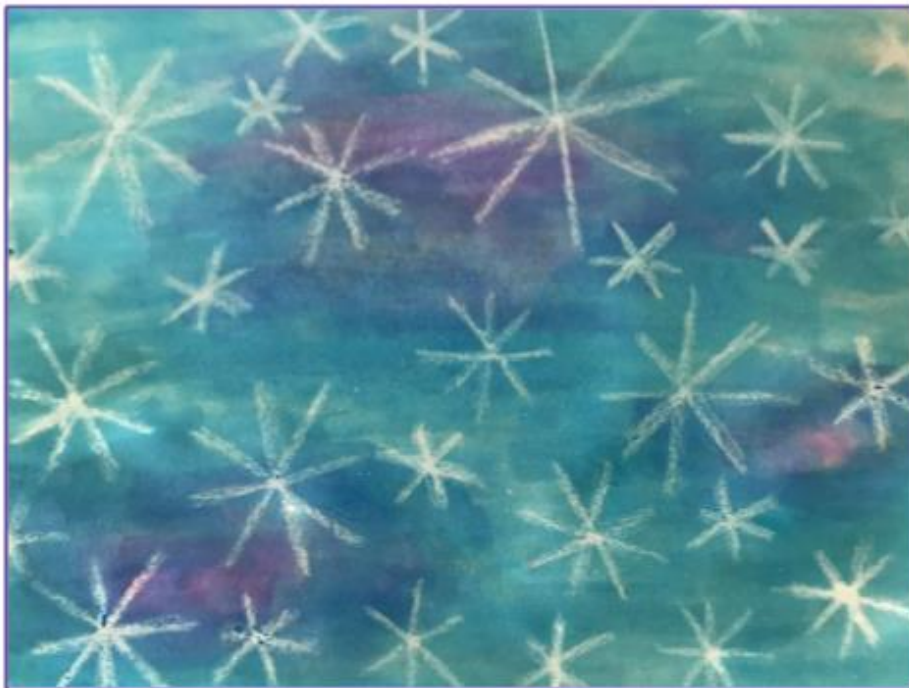

- Paper (the thicker, the better - cardstock or watercolor paper works best)
- White crayon
- Watercolor paint
- Paint brush
- Paper towel
- Water

## Step 1

Use the white crayon to draw snowflakes on your paper.

- *Go over each line several times, so they show up after you paint over them!*
- *Everything you don't color with crayons will turn the color of the paint*

## Step 2

Watch your snowflakes appear when you paint over the paper with blue watercolor!

- *Try adding some other wintery colors too, like purple*
